International Journal of Production Economics, 32 (1993) 389–390
Elsevier

Contents Volume 32

Vol. 32, No. 1 (August 1993)

Publisher's Note ix

Industrial benchmarking: A case study of performance analysis techniques
M. Schefczyk (Düsseldorf, Germany) 1
A new method for the analysis of operating costs of construction equipment
E.K. Manatakis and P.A. Drakatos (Patras, Greece) 13
Modelling and analysis of Just-In-Time manufacturing systems
A. Gunasekaran (Vaasa, Finland), S.K. Goyal (Montreal, Que., Canada), T. Mortikainen (Vaasa, Finland) and P. Yli-Olli (Vaasa, Finland) 23
Predicting inventory record-keeping errors with discriminant analysis; A field experiment
G.M. Sheppard (Mukilteo, WA, USA) and K.A. Brown (Seattle, WA, USA) 39
Dynamic scheduling–A Survey of Research
V. Suresh and D. Chaudhuri (Madras, India) .....
A multidimensional scaling algorithm for group layout in cellular manufacturing 53
M.P. Chandrasekharan (Calicut, India) and R. Rajagopalan (Madras, India) 65
Probabilistic time-scheduling model for an exponentially decaying inventory when delays in payments are permissible
N.H. Shah (Gujarat, India) 77
Supply delays and the inventory stocking policy
A. Sulem (Rocquencourt, France) and C.S. Tapiero (Cergy Pontoise, France) 83
A note on ordering policies with cost of observation and lead times
V. Sridharan (Madras, India) 91
An inventory model for non-deteriorating items
V. Sridharan (Madras, India) 99
Survey of project evaluation techniques currently used in industry
D.S. Remer (Claremont, CA, USA), S.B. Stokdyk (Agoura Hills, CA, USA) and M. Van Driel (Laguna Hills, CA, USA) 103
A two-level decision-making model for controlling stochastic projects
D. Golenko-Ginzburg (Beer-Sheva, Israel) 117

Book Review 129
Diary of Events 131

Vol. 32, No. 2 (September 1993)

Classification and coding of components for implementing a computerized inventory control system for a television assembling industry
D. Rajamani (Winnipeg, Man., Canada) 133
Linear programming optimization of a network for an aluminum plant: A case study
A. Farkas, T. Koltai (Budapest, Hungary) and A. Szendrovits (Hamilton, Ont., Canada) 155
Comparing performance measures in dynamic job shops: economic vs. time
T.R. Rohleder (Calgary, Alta., Canada) and G.D. Scudder (Nashville, TN, USA) 169
A note on "minimizing a quadratic function of job lateness on a single machine"
R. Tadei (Torino, Italy) 185
A neutral-network-based approach for estimating the cost of assembly systems
A. Shtub and Y. Zimerman (Ramat Aviv, Israel) 189
A fuzzy upgrading of integrated value managerial and engineering knowledge
M. Dohnal, M. Starzak (Durban, South Africa), M. Kerkovsky (Brno, Czech Republic), J. Dohnalova,

0925-5273/93/$06.00 © 1993 Elsevier Science Publishers B.V. Allrights reserved.

J. Vystrcil (Troubsko, Czech Republic) R. Koivisto (Tampere, Finland), M. Pokorny (Dobra, Czech Republic) M. Vanis (Durban, South Africa) and S. Parsons (London, UK) 209
Outage costs caused by various outage depths
G.J.Y. Hsu, P.-I. Chong and T.-y. Chen (Taipei, Taiwan, ROC) 229
Multiobjective facility layout using simulated annealing
G. Suresh and S. Sahu (Kharagpur, India) 239
An optimal batch size for a production system operating under a just-in-time delivery system
A.M.M. Jamal (Hammond, LA, USA) and B.R. Sarker (Baton Rouge, LA, USA) 255
An analytic eclectic heuristic for replenishment with linear increasing demand
J. Yang and G.K. Rand (Lancaster, UK) 261

Diary of Events 267

Vol. 32, No. 3 (November 1993)

Analysis of correlated risky cash flow
Y.V. Hui (Hong Kong), L.C. Leung and J.S. Huang (Tampa, FL, USA) 269
Modeling in-house vs. contact maintenance, with fixed costs and learning effects
W.J. Kennedy (Clemson, SC, USA) 277
Heuristic algorithms for scheduling in the no-wait flowshop
R. Gangadharan and C. Rajendran (Madras, India) 285
A deterministic inventory model for deteriorating items with stock-dependent demand rate
S. Pal, A. Goswami and K.S. Chaudhuri (Calcutta, India) 291
An efficient dynamic dispatching rule for scheduling in a job shop
T.S. Raghu and C. Rajendran (Madras, India) 301
Unquality-costing sampling plans by variables and their implications on supply relationships
S. D'Amours, P. Lefrançois, B. Montreuil and A. Ramudhin (Ste-Foy, Que., Canada) 315
Optimal target values for a filling process when inspection is based on a correlated variable
D.S. Bai and M.K. Lee (Daejon, South Korea) 327
Comparison of depreciation and corporate tax policies between the countries of the North American Free Trade Area (NAFTA) and the European Community (EC)
D.S. Remer and A.P. Nieto (Claremont, CA, USA) 335
A comparison of manufacturing management in JIT and non-JIT firms
M. Ebrahimpour (Kingston, RI, USA) and B.E. Withers (San Diego, CA, USA) 355
Technological progress and optimal supply price
K.K. Dompere (Washington, DC, USA) 365
